The meeting was called to order at 11:05 AM

The minutes of 3/1/13 were approved with revisions.

The committee approved the cross listing of ECE498, mobile computing.

The discussion of Ravi Iyer's proposed ECE313 section was revisited. The chair has agreed to get further information from Ravi and Bruce Hajek for reconsideration by the committee.

CS498 Digital Forensics, on the topic of the detection of cybercrime, was considered for cross listing in ECE. Since the course is not yet developed the committee did not approve the request. However, such a cross-listing is permissible and will be reviewed when the course syllabus is complete. The course is intended to be a 4 hour course divided between 2 lecture hours and 2 lab hours.

The discrepancy between the number of introductory course hours for EEs and CompEs is not yet resolved. The committee-approved proposal on which the faculty will vote is for 9 hours not the 11 hours currently indicated. The CompE technical area committee will resolve this matter and report to the curriculum committee.

The meeting was adjourned at 11:44 AM.

These minutes drafted by S. E. Levinson, Apr. 4, 2013; revised Apr. 5, 2013.
