

ECE Curriculum Committee Meeting Minutes for December 3, 2009

Members present: Stephen Bishop, Donna Brown, Todd Coleman, Lynford Goddard, Douglas Jones, Erhan Kudeki, Stephen Levinson, Steven Lumetta, Jonathan Makela, Sean Meyn, Michael Oelze, Sanjay Patel, Pramod Viswanath

1. The Minutes of the November 19, 2009 meeting were approved with minor corrections.
2. IB 107 was reviewed for technical elective credit. As a general education course for non-science/engineering majors, and a course not approved for technical credit in the IB department majors, the course does not satisfy the technical elective guidelines adopted by the Curriculum Committee. IB 107 was judged insufficiently advanced technically for technical elective credit, and was not approved. It was noted that it remains available to interested students for free elective credit.
3. The revision of ECE 460 was approved with minor corrections to the documentation.
4. The Committee began discussion of the ECE 342 course revision, but quickly ran into questions regarding the changes from the current ECE 442 outline. We decided to postpone discussion to the following week and invite Elyse Rosenbaum or her circuits-area colleagues involved in the revision to meet with us.
5. The Committee adjourned at 1:37 PM.
